

The easiest way to share documents in the front office.

fi-6000NS

Color Duplex Network Scanner

Turn-key network scanning solution with a small footprint and high performance

- ▶ Automatic image quality adjustment, automatic color detection, image deskew, automatic paper size detection and blank page detection and removal
- ▶ Small footprint makes it easy to install in a variety of locations
- ▶ Large touch screen display makes it easy to enter data and view images
- ▶ Built-in US 101 keyboard
- ▶ Robust 50-page Automatic Document Feeder (ADF) for hard and embossed card scanning as well as long document scanning.

FUJITSU

THE POSSIBILITIES ARE INFINITE

fi-6000NS

Color Duplex Network Scanner

The easy to use scanner for sharing documents in today's multi-location, global environment.

The Fujitsu fi-6000NS Network Scanner is the first scanner that combines the intuitive, easy installation of a desktop scanner with the productivity of a network scanner.

Network scanning, collaboration, emailing and faxing just got a lot easier. Simply load your documents, log into the network, select the destination, and press the scan button.

The fi-6000NS scans in color or monochrome at duplex speeds up to 50 ipm. With a 600 dpi optical resolution, image quality is among the best in its class.

Not only does the network scanner offer ultrasonic double feed detection and long document scanning support (up to 34 inches), it also features hard card scanning capabilities (ISO7810 standard) and embossed card scanning through the main automatic document feeder (ADF). With a compact footprint of only 12.4 in. (W) x 10.8 in. (H) x 15.5 in. (D), the fi-6000NS installs easily into even the most crowded environments, including front office and back office locations.

One machine that does the work of four.

Its compact size isn't the only reason the fi-6000NS saves space. Because it can scan to a network fax system, scan to email, scan to PDF and scan to shared network folders, it also saves space — and money — by eliminating printers, fax machines, and scanners that are no longer needed. Not to mention the costly supplies and maintenance for those machines.

Featuring a large touch-screen display and a built-in US 101 keyboard, the Fujitsu fi-6000NS offers the same input capabilities as a computer. Need to email a document? Scan it, enter the email address and touch the send email icon. Need to share a document? Just scan it to a PDF and send it to the office next door, or to an office around the world.

Increase productivity and decrease costs. The fi-6000NS scanner does it all. With the Fujitsu 90-day limited warranty, along with our Advance Exchange or ScanCare programs, you can maximize your productivity and uptime.

Technical Specifications

MODEL	fi-6000NS	
Functional Specifications		
Technology	Dual Color Charge coupled device (CCD) image sensors, 80Gb SATA 3.5 in HDD	
Resolution	150, 200, 300, 600 dpi	
Halftone patterns	Dither and error diffusion automatic	
Color	24-bit single pass color, auto color detection	
Scanning speed	Color	Simplex: 25ppm (200dpi), Duplex: 50ipm (200dpi)
	Monochrome	
Scanning mode	Simplex and Duplex	
Document feeding mode	Automatic document feeder (ADF)	
ADF capacity	50 Sheets (letter/A4, 20 lb.)	
Document size	ADF minimum	(A8) (2.1 in. x 2.9 in.)
	ADF maximum	(Legal) (8.5 in x 14 in)
Network protocols	TCP/IP DHCP, SMTP, SMB, LDAP and SNMP	
Network server	Windows 2000 or 2003 Server required	
Output methods	TIFF, MTIFF, JPEG, PDF, searchable PDF's (English)	
Interface	One network connection RJ45 10/100 base T	
Software driver support	All software loaded on system (embedded)	
JPEG compression	Hardware; choose from 7 different levels	
Physical Specifications		
Power requirements	100 – 240 VAC, 50/60 Hz	
Power consumption	Scanner	28-34 W, Energy saving mode: 6 W or less
	Computer	88 W or less, Energy saving mode: 10 W or less
Operating environment	Temperature	42° to 95° F (5° to 35° C)
	Relative humidity	20% to 80% (non-condensing)
Dimensions (HxWxD)	12.4 in.(W) x 15.5 in.(D) x 10.8 in.(H)	
Weight	13 KG / 28.7 lbs	
Environmental compatibility	RoHS	
Automatic image processing	Auto deskew, auto orientation, auto page size detection and blank page detection	
Security	Password protected (PDFs), login authentication (LDAP)	
Touch panel	Screen size	8.4 in. XGA (1024 x 768 pixel) TFT color monitor
	Type	Analog resistive touch display
Keyboard	US101 keyboard (fi-6000NS model)	
Limited Warranty	90-day Limited Warranty. Advance Exchange, Basic, and ScanCare programs also available; Restrictions apply. For full details, visit www.ImagingService.com or call (800) 626-4686.	
Service options	Post-Warranty — Advance Exchange Plus, Basic Plus, and ScanCare™ Plus; restrictions apply. Consumables — ScanAid™ kits For full details, visit www.ImagingService.com or call (800) 626-4686.	
Inbox Contents	Network cable and power adapter	
Features	Ultrasonic double feed detection, hard and embossed card scanning capability and long document scanning	
Part Number	PA03544-B005	

THE POSSIBILITIES ARE INFINITE
